

Powerful Protection

Alter 25 years of teaching and learning psychic protection techniques from many faiths, magical orders and religions, and personally experience all source of attacks from heavy satanic witchcraft to the daily energy blockage and emotional garbage transfer, I can conclude that the easiest and more powerful way to protect one self is to wear a crucifix.

It does not matter your religion or faith, Jesus is universal and his sacrifice opened incredible doors that created for the first time a vibration of salvation for all sentient beings. After Satan gave his back to God, he also gave turned away from the all given source of Life that is God's Light. In synthesis Satan found a way to steal that Light and was to obtain it thru all God's souls, devouring the light they received from God using all source of methods from demonic possessions to making the souls lose their way into darkness. But once Jesus Christ died in that cross, at that very moment in time and space a new vibration was created for all the universe and all universes, and this new light can not be devour by the satanic realm, on the contrary it destroy them, in that way Jesus was Eternally victorious over Satan and gave the opportunity to all souls to tap into that vibration and be saved from Satan's plan.

So, by wearing a crucifix you are tapping into that eternal moment where Jesus is transmitting that energy of salvation for all, and thus protecting your self at all energy levels of your being. Make sure when you buy a crucifix that is the most simple representation of that very triumphant moment, as there are some crucifix with decorations, symbols, seals, wear shapes and so on that won't work as well. The simpler the better and specially make sure the crucifix has the INRI sign on top.

If you are suffering from psychic attack, sorcery , witchcraft, demonic entities attacks, etc, you will be bless with the highest protection by wearing the crucifix. Don't let previous experiences with the Church or Christian groups prevent you to be able to use the amazing protection.

God Bless you now and always,

Cyndarion and Galitica.
