

## Catholics and Christianity

Catholics form the biggest religion on the planet and Christianity one of the fastest growing. Most of us are very familiar with their teachings, so I will be brief here with some of the points we have realized to be true in that tradition:

- 1- In the Bible there are many places where you can find the actual word of God. I mean His words as received directly by some of His prophets. Although, there is a lot of information that is not directly from God as these series of books were written by humans in different times of history, it is indeed the greatest historic and spiritual testament of the highest vibration. (not all of the books made it into the Bible as the Church saw to it)
- 2- God as mentioned in the Bible is without a doubt the Supreme Being of all religions and the Divine Creator of all souls and Nature.
- 3- Jesus is without a doubt the son of God. This does not mean that we are nor all God's children, but Jesus was born of God with the specific purpose to fulfill His promise of salvation for all souls, then God truly gave us His own out of His boundless love.
- 4- The words of Jesus spoken in the Bible are the words of God. (some have been changed a little)
- 5- The Prayers are the most powerful purification prayers in the planet. Those prayers are incredible words for God Almighty to help us balance our lives, relieve our sins, exorcise dark souls and demons and to reconnect to our creator; our beloved Father God.
- 6- The Bible also reveals in brief occasions Lucifer's rebellion and his fall from Heaven. (It is all true from what we have received from God)
- 7- Armageddon and Judgment Day are real and at hand and those with deep faith in God will gain eternal life after those events, freeing themselves forever from Satan's illusion or what the Hindi named Maya.
- 8- The reality of Hell. Yes, it is a real place of eternal damnation.

### What are the limitations on these religions?

- 1- They don't believe in reincarnation, so it is very difficult to understand the different experiences that each individual soul has to face in this life due to past life sins and transgressions, so the individual grows with deep resentment believing that God is not a just God. God gave us free will and the power to choose and in that choosing we carved our destiny even for future lives.

- 2- Without reincarnation there can not be the possibility of soul evolution, which is the highest divine purpose for all souls: Growth without limits.
- 3- Christian make too much emphasis in Jesus to the point that sometimes God passes to a second plane that can only be reach through Jesus and is it false. God can be reach directly without any intermediaries. Jesus is a divine being, but God is God the Supreme Being and in these times we need to connect directly to Him.
- 4- The same applies to Catholics with the image of Mary. She was only an instrument, and although she was a beautiful soul, in her soul evolution she is light years away from Jesus' level, so all adoration that is given to her most be redirected towards God alone. Same thing applies to all the saints.
- 5- The Church have invented many rituals never taught by God or Jesus, and with the assistance of hundreds of years of repetition are taken as true by all the naïve believers, including the believe that the Pope is the intermediary between Heaven and Earth and is so false, draws close to blasphemy.
- 6- These religions have no concept about the Self or Soul Realization nor Enlightenment that tremendously limits the evolution of the soul in their present incarnation.
- 7- Some of the true teachings received by Christian mystics in that religion have being veiled from the public as they have true teachings of how to relate to God. You can find some good books here and there with their realizations.
- 8- The concept of Karma was explained by Jesus: What you sow you will reap. But is no understood clearly by the majority that think of them selves as plain sinners.
- 9- There is no aspiration to transform the ego sense, only to recognize that one is a sinner and pray for forgiveness. This limits the personal power of each individual to grow beyond Satan's illusion that has been imposed in their minds trough the vehicle of the ego.
- 10- There are a lot of esoteric teachings missing to understand the universe, the incredible variety of extraterrestrial and other dimensional beings and the universe of live and energy that surrounds us all with universal laws created by God.

**"The highest Religion unfolds between the Soul and God. No intermediaries, rules, dogmas, rituals, organizations, etc. God send His son to remember us this, although some of his words have been changed. We as Jesus can have a one to one relationship to our Father God."**
