

WHO IS GOD?

The highest spiritual path that a soul can aspire in this life is a direct relationship with God. This is the supreme path in all the universes, and there is not and will never be a highest goal in all creation. There is no religion, belief, philosophy, cult, or spiritual path in the planet that is superior to this simple truth revealed here:

True religion is the relation between God and you, and absolutely nothing else in between.

God is the Supreme Divine Personality of all existence. His Divine Form is higher than what some has name Brahman, the Absolute, the unified field of Consciousness, Pure Consciousness, the Self, Void, Source, Ain, Tao, Nirvana, Krishna or whatever other name you may want to use. From his Divine Form that can only be revealed by direct experience. He created everything from the energy within his Divine Body. The light that the yogi named the Absolute Brahman is only a radiation from the Divine Body of God, and is the same light that the Catholics has named the Holy Ghost. This Omnipresent light is only one of His aspects, but not his Totality.

The formless absolute God from many religions and philosophies has limited qualities if any, but the Divine Form of God possesses infinitude of virtues and divine qualities, and his presence can bestow upon the divine soul indescribable experiences that can never be comprehended by the human mind that is material such as: Infinite Love, Infinite light, Infinite Bliss, Eternal Peace, Enlightenment without limits and more.

Divine experiences and virtues can be imparted in His Company to the Soul that has received salvation and is in the process of evolution. - Let's see an example from a myriad of possibilities while in the company of God: A liberated Jnani or Yogi can be in a formless liberation without individuality, where there may be an experience of some peace and bliss. But those who had attained God's Divine Form can experience unlimited of possibilities such as: Unlimited Love. Let's use this example and imagine that a Soul is liberated in Paradise with God. Paradise is a Divine adobe that exists in a Divine place beyond the seven Dimensions and Maya or the Web Matrix. All of the sudden the soul see God passing by in His Divine Body and the soul vibrates in Divine love and bliss inconceivable to the nervous system of a mortal that could never resist. And the soul says: Oh! The love that the Presence of

God has bestowed upon me has no limits and is infinite, there is no possible that there is anything higher than this. Then God passes by a second time and bestows upon the soul and an experience of Divine Love and bliss thousands of times higher than the previous one.

How is that possible? Because in the Divine plane all that seem impossible is possible. There are no limits for what a being can experience or evolve. Because there is a true freedom of expression where God promotes unlimited growth for all His children.

What is your teaching?

Our message has no name, is not a religion or a philosophy. We are just delivering a message with promise of salvation for all beings: Those that have Profound Faith in God that loves us so much will be saved and attain Eternal Life. The world is trapped in a big lie, a great illusion. The ideas sold to all humanity about God are full of wrongful interpretations, with only one purpose and is to prevent you from creating a true relationship to God. The only way to break with the false story that is being delivered by this world of illusion by all religions and gain Eternal life is by restoring the one on one relationship to God with no intermediaries.

How do we begin to build this relationship with God?

There are many elements that will be mentioned ahead, but without a doubt the first step is to increase our **Faith in God**.

How do we increase this Faith in God?

We have many tools given to us by humanity directly by God, to help us increase our faith in our Divine Father. Without a specific order of importance here we mention them:

Read only Jesus words

In the Bible in the New Testament we have many of the books that were allowed by the church as part of this holy book. Although there were many important documents left behind for reasons that are not important here, there are enough

books in the New Testament where we can find Jesus words. In some Bibles like the New Modern version for example, the words spoken by Jesus are **printed in red**. **The practice to increase our faith in God entails in** only reading Jesus words, everything else can be put to the side. These words directly spoken by Jesus are full of inspiration and reveal the intimate relationship that Jesus has with his Father, a relationship that can be attained by all as we direct our hearts towards that divine purpose.

The Psalms

The Psalms in the Bible are the most powerful prayers that directly connect us to the divine form of God to the One we pray. These prayers increase our faith, create devotion and love for God and also bring a great protection upon the individual. Psalms are so powerful that if a person reads them with faith they can liberate anyone from deep negative energy blockages, evil entities and spirits, heavy sins or karmas and even demonic possessions.

In regard of the Bible this are our only recommendations.

Practice the Transmission of Faith twice a day

Practice the transmission of Faith as taught in this web site (see. Planetary Transmission) every day, and you will be directly connected to the Divine form of God and will increase in your inner being a feeling of incredible faith in our Father that will manifest little by little towards the mind, changing your relationship to God Forever.

Personal Prayer

Personal prayer is also an important tool to create an intimate relationship with God. Speak to him as you would talk to your father and open your heart to say what you feel.

What is Faith in God?

It is born in the heart and begins to evolve the mind towards a single point of living in all the fibers in your being that God is our Loving Father and as such He will never let us fall into the darkness. People place faith in God with the intention that He will resolve all their problems because they have Faith in Him, and if that doesn't happen little by little they begin to lose faith. In reality Faith in God is not linked to anything in this material world of illusion, but Faith in God is only linked to

God and His Divine Creation. This entire world is transitory and impermanent, but God's world is Eternal. Thus Faith is build to arrive to our father's house, not for Him to give us a house here, which is a thought of a material mind that is slave to the master of the world of illusion. Faith is to feel without the assistance of the mind or intellect that God is always ready to give us His unconditional love, and no matter what this world will do to us and how hard it hit us; God will be always ready to bless us and received us when the final hour is at hand. Faith in God is born in the heart, and stays there, and has nothing to do with positive thoughts, learning prayers or rituals. Faith is the key that opens the door towards the soul's own salvation.

Why we talk about Salvation?

We are heading towards the end times. Great changes are approaching at many levels and we just need but to take a look at humanity now and building crisis such as global warming, natural disasters, wars and their consequences, over population, hunger and poverty, dependency on oil giving instability to many nations, and much more. If we talk about the spiritual area we can find all types of warnings and prophesies. Some say that we are in the apocalypse, others that a change in the Earth's pole inclination is imminent, that a super volcano to explode is overdue, a meteorite coming to earth, the end of time in the Mayan calendar, the photon belt is making changes to the consciousness, Planet X will pass by soon causing havoc and destruction, the gray extraterrestrials are changing the atmosphere of the planet planning a take over, the illuminati and new world order theories of world domination, mass ascensions by 2012, crossing towards the 5th dimension and much more. If only one of those changes comes true, it will claim millions or even billions of lives and **only those that have great Faith in God will be saved from being trap in this world of illusion rule by the demon at that moment.**

Besides Faith in God, what other steps should one take to strengthen that relationship with God?

Faith in God is enough for all beings in the universe that seek salvation. For those that seek not only for salvation, but to attain great spiritual evolution there are other steps to take.

Why is evolution important?

Because is the divine design for each soul to evolve **without limits**. The more evolve the being is, the more can be of service to God and His divine plan. There are many

beings call to evolve for the benefit of all beings. The greater the evolution the closer the relationship to God.

How do we pursue that fast evolution in this life?

The human mind is trap in a great lie, a fictional world that has been imposed upon our eyes. The Hindu call it Maya, the Buddhist samsara, the Toltec call it the false history of the human form, in the movie Matrix; the Matrix, we call it the Web, the Catholics hell that is not in another place or reality, but right here and now in this world of lies. The first step after increasing the Faith in God is to realize that we are not this mind and bodies that are connected to this great web of lies.

Who is sustaining that Maya, Web or Matrix?

In synthesis it was said that the great Archangel Lucifer felt from the Divine Providence of God's grace because of his pride. There was a great war in heaven and Lucifer and his armies of rebel angels were expelled from heaven by Jesus and the Archangel Michael. But the war did not ended there as Lucifer full of anger, envy, jealousy and pain, gave fully his back to God his Creator to the point that he denied Him completely. In time (Time was created by Lucifer himself) the fallen one and his angels became demons and later on he became to be known also as Satan.

Satan created his own separate reality from God in which he could reign as God. But no one can exist without God's Divine Light, as his Only Light created everything. As Satan could not obtain that Supreme Light directly from God our beloved Father, he design a plan to steal that light from all the beings that love God and receive His Light, in that way as a second hand got what he and his followers needed with out having to receive that light directly from God.

The fallen one creates an illusion based on time and space to deceive the beings of light, created to the image of God our Father (represented in the story of Adam and Eve). Once the beings of light, the divine souls were driven out of paradise, what was waiting for them outside was the virtual word, the matrix, the Maya, the illusory reality that Satan created.

How do we free our selves from the Illusion of Satan, from this Maya while still in these bodies of flesh?

Here is the first clue for the evolution of the soul. God created us in likeness of his image. Do you see God walking in a body in the street? Of course not, because He is

a Divine Being of Light, as we are also his children. We are not these physical bodies as Satan's illusion wants humanity to think. Then our first step is to realize that we are to Soul or **Soul Realization**, that will allow us to separate from that illusion of being the body and experience our true Self. In the Easter traditions they call it **Self Realization**, but have some misconceptions.

Once Soul Realization or Self Realization is attain what is next?

The second phase is to dismantle the ego that is the one that is connected like a Web with all the egos that are influence directly by Satan's energies. This is the road towards Enlightenment as has being explained in our teachings.

What is your experience about God and His creation?

God is a Divine Being with a body and Divine Form, with whom we can relate to Him as you would relate to any other being.

God is Love and love us all unconditionally as we have being created out of His Divine Being; that is why He is our Father. He is androgen, but we relate to Him as a Father, because although he loves us as Mother, He guides and punish as a Father.

If God is pure love why He punish people?

Do not a father punish a son when is being raised? All of those who are parents know that we punish with love because we want the best for our children, to protect them and guide them to the right path. In the same way the soul that is seeking unlimited evolution, when is under the Divine tutelage of God, will be punish when tries to get off the road toward freedom and limitless evolution. Only rebel children like Lucifer that wanted evolution with out limits, or in his case be as God, but without going thru the path of evolution, love and education by God, are the ones that give Him their back and follow other paths of Impersonal Absolute Gods, or worst begin to thing they are God themselves.

If God created everything, why is not everything Divine? Why evil exists?

This is the first lie that Satan place in the mind of mankind. God did no create everything. Our Father did no created evil, envy, hate, demons, etc; those are Satan creations.

If God is Omnipresent, isn't he present in the demons themselves?

Another of Satan's lies. The radiation from the Body of God is Omnipresent, but the Divine Body of God is only in one place at a time. He is All Knowing, but his Divine Body is not simultaneously in all places, Only His Presence Is. But from Satan's being have come out his own creations or demons that God has never created so are the demon's creations. The entire fallen angels that follow Lucifer in the fall, although originally God's creations, once they turned away for His All Loving Live Giving Light became demons.

Why God is does not free us from Satan as his deception?

There is free will in the Universe and He can only save those that want to be saved. For example we bring this message of salvation that God has given us for all:

"Leave all the false paths, religions, churches, philosophies, gurus, and teachers and come to Me, Only Me, and have Faith in Me alone!"

But how many are going to believe these words and leave everything else to follow only God with Faith in Him?

You know the answer. It is a decision of each one of us, because the universe is all about taking decisions. The offer is there and if you listen to the human mind and not the call of God in your heart you will follow the wrong path.

Cyndarion and Galitica
